

> Company profile of the SCHURTER Group

Company: schurter.com/about

The SCHURTER Group is the world's leading Swiss technology company for safe power supply, simple operation and the most demanding complete solutions.

Mission

The SCHURTER Group is a successful Swiss family-owned company operating worldwide. With our components for safe power supply, input systems for simple operation and sophisticated overall solutions, we convince our customers with agility and excellent product and service quality.

We focus on industrial electronics, medical technology, automotive technology, data and communication, aerospace and energy technology. We are growing at an above-average rate in these dynamic segments.

We work closely with our customers worldwide, both directly and through our partner network. Thanks to our high level of expertise, financial independence, innovative strength and distinctive corporate culture, we are leading the SCHURTER Group into the digital future together with our customers and partners.

Segments

SCHURTER offers various products and solutions for specific industry segments. The typical industrial requirements are taken into account accordingly.
